Please check out these two bimax simulations:

[attachment=232][attachment=233]

Both gifs have the same anterior advancement — measured by the length of the resulting posterior gap — but in one morph the maxilla is rotated counterclockwise with a corresponding impaction for a proper bite. There's obviously nothing wrong with the jaw in the before-images, but they're just morphs I made to get my bearings.

From the reading I've done there seems to be some aesthetic advantages — if you're a candidate — with a CCW rotation, e.g. improved mandible angle, less resulting mass at the base of the nose, a shorter lower third and a more curled, aesthetic philtrum (?).

Whenever I research my problems I keep bumping into posts by Kyra all over the web, which is understandable given that our issues are (were?) quite similar.

Am I understanding this right? Surgerycels please respond.

p57 and ongoing

Decay
Is there dignity in living life as an entity?
Born into ruin, we feel withdrawal
Subhumanity is poison
And we are lost without a cure
We are not fit to walk amongst them
Eventually this is something we must accept
The world moves on without us
And only the grave welcomes us with open arms
So pray for your rebirth
Pray for another chance to bloom
While the rats will feed off of our failure
We wither away rotted from the core
Welcome to your new home

I'd sooner put a bullet through my face.

My outer appearance was poor, but in this way my inner world became richer than anyone else's. Was it not natural that a young boy who suffered from an indelible drawback like mine should have come to think that he was a secretly chosen being? I felt as though somewhere in this world a mission awaited me of which I myself still knew nothing.

holy shit stop coping. you cant afford it -> you dont like it

and i actually never said you should go for it.

beautiful:

[Image: KPS-aesthetische-chirurgie_2.jpg]

i agree that a lot of his patients look strange after surgery. they still look better than before and he was able to create something out of nothing.

ccw=life

He creates an inhumanly-looking appearance. He is the master in creating scary looking individuals, no doubts. And he is also the master of photo retouching.

Did this guy have other things done? Lipo? implants? How has his jawline improved so much? In the before he has none, and ater you can even see the jaw angle/ramus near his ear.
I think I need this surgery...

Sailer charges an extortionate amount of money for proceedures and he photoshops his before/ afters - confirmed by many forums.
